Of production space dedicated to pain-relief solutions

50+

Years of trust from Doctors & Physicians

ABOUT US

THE VISSCO STORY!

Set in 1962, over 50 years ago, this story begins with Mrs. and Mr. Chinubhai Gandhi— a happily married couple with two sons. Like many of our consumers today, Mrs. Gandhi suffered from severe cervical pain, which bothered her for more than 2 years. Her biggest strength, however, was her loving and caring husband. But, given that there wasn't an effective remedy at the time, Mr. Gandhi felt helpless about his wife's suffering and wished to be able to relieve her pain.

One sunny day, an Orthopaedic doctor (and friend) advised Mrs. Gandhi to try out a cervical traction kit that he got shipped from the U.S., especially for her. To their surprise, the kit worked wonders! In under 3 months, Mrs. Gandhi was not only pain-free but glowing and smiling with utmost joy. Feeling overjoyed and empowered to see how this kit worked wonders, Mr. Gandhi wondered about how he could give this experience to others who were suffering similarly. That is when he found the purpose of his life. He now wanted everyone suffering like Mrs. Gandhi to find relief from their pain. This inspiration led him to manufacture a few orthopaedic and rehabilitation aids, from his very own garage!

Yes, Vissco was born! Born with the purpose to empower people and their loved ones to feel less pain.

VISSCO TODAY!

Comforting pain since 1963...

True to its mission (and within a really short span of time), Vissco today offers one of the largest range of trusted orthopaedic appliances, fracture aids and mobility solutions, both nationally and internationally.

Comforting pain "from beginning to end"

Our product portfolio addresses the entire continuum of patient care during rehabilitation. We help to prevent ergonomic injuries (office/car supports), provide support and relief from the pain of injuries, as well as offer products that enable mobility post-initial recovery. Today, the company provides solutions for musculoskeletal health, vascular health and pain management. Vissco offers aids for various indications including those surrounding the neck (cervical), abdominal, back (lumbar), wrist, elbow, calf, knee, ankle and eyes. So, whether it is acute, short-term, degenerative, chronic, regular or sports-related, we have standard and diverse pain management solutions, all under one roof.

Redefining Accessibility and Mobility

Today, with advanced science and technology, the demand for innovative mobility and walking aids has risen rapidly. Vissco's Product Innovation and Development Cell is constantly upgrading its products with cutting edge manufacturing and design technology to improve user comfort and mobility. At Vissco, we dream of a society where the physically challenged can experience the joy and freedom of being independent and get the dignity and respect they rightfully deserve. Our continuous research and development ensure that we consistently improve our products and update them with better features, aesthetics and increased comfort for our users to experience less pain and more mobility. We are happy to introduce an enhanced and upgraded product range for our valuable customers.

Recommended and Trusted by Millions

Over the past 50+ years, we have successfully provided pain-relief to countless backs, necks, ankles, wrists and elbows. Millions of consumers across the globe have used Vissco products and passed on the message of empowerment.

Recommended by Healthcare Professionals

Our products are used, trusted and recommended by orthopaedic specialists, spine surgeons, primary care physicians, pain management specialists, general practitioners, physical therapists, podiatrists, chiropractors, and other healthcare professionals.

MAKES ME MOBILE...

Wheelchair Series

To enable Mobility VISSCO has a comprehensive range of wheelchairs. The different models are listed below to ease selection:

Vissco Zip: VISSCO is happy to introduce powered wheelchairs through Vissco ZIP. Vissco is presently having two variants Zip Lite and Zip 1.0.

Vissco Superio: Vissco Superio wheelchairs are made with light weight high grade aluminum. The entire Superio range satisfies customer needs from all ends. They come with pneumatic tyres for more comfort on any road conditions, fire retardant seat covers and stylish looks. This range draws its inspiration from European designs and are extremely durable.

Vissco Imperio: Vissco Imperio are tough and durable wheelchairs. With added functions and tilted high back, Imperio comes with stylish looks, improved design and an improved weight bearing capacity. The wheelchairs are extremely safe and made for customers looking for long term use.

Vissco Transit: Vissco transit wheelchairs are lightweight, portable and easy to carry. This wheelchair is ideal for travel and short period use.

Vissco Rodeo: Vissco Rodeo wheelchairs is economically priced and made for customers who require a wheelchair for a short time period. The new designed Rodeo comes with removable handle and removable footrest.

Vissco Comfort: Vissco Comfort is having commode wheelchairs and other commode products that serve as bathroom aids. Some of the solutions have high grade anti corrosion stainless steel or Aluminum parts that is epoxy powder coated or chrome plated. The plastic bucket used is washable and removable made from antibacterial material.

Vissco Champ: As the name indicates VISSCO Champ is having products that are made and designed for children aged between 6 to 10 yrs of age.

Zip Lite
Power Wheelchair

Product Code: 2974

- Light weight with 100 kg weight bearing capacity
- 12 km in single charge
- Fire retardant upholstery
- Pneumatic Pump (Optional)

Vissco Platinum is the premium range of Vissco products that uses international material and is designed keeping in mind international standards and requirements.

The products are made from Flat Knitting Technology which provides optimum compression and better stretchability. The Heat Fusion Technology used in these products reduces the process of stitching preventing skin irritation and rashes. The synthetic fiber used is a spandex that is latex free. The products are thus more durable than natural rubber and extremely skin friendly.
